

## [Call for Reviewers](#)

Discussion published by Daniel R. Meister on Monday, September 26, 2022

Hello all,

As Book Reviews editor, I am always looking for subscribers who are willing to review books for our network. **At present, we are specifically seeking those with expertise in Biography as a research methodology, particularly in the Social Sciences.** We also welcome suggestions of books for review. Our immediate goal is to build a base of reviews of books about biographical theory and method, upon which we can later expand to include biographies from all parts of the globe.

Please respond directly by posting below, or else use the "Write the Editors" link on the main H-Biography page.

Thanks in advance!

-Daniel

NB: We cannot accept unsolicited reviews, nor can we allow reviewers to select the volume they wish to review, though authors are welcome to bring their volumes to our attention, to be put on the list of works for review.
