**H-Material-Culture** 

## **Material Culture Podcasts**

Hi folks,

Over on <u>H-Podcast</u> there is a growing list of <u>podcasts in academia</u>. It's pretty awesome, but there is only one in their material culture category! That's surprising to me. Material Culture Studies has a pretty active online life, particularly in the <u>blogosphere</u> and the <u>twitterverse</u>. But next to the nothing in the podalaxy?

Can anyone send some suggestions about material culture podcasts that can be added to the H-Podcast list? Or alternatively, offer up any speculation as to why podcasts and material culture don't mix?

Thanks

Patrick
