

[Syllabi for Modern Southeast Asia course, intermediate level](#)

Discussion published by David del Testa on Thursday, December 29, 2022

Dear colleagues,

I am looking to freshen my Modern Southeast Asia course, and I would like to ask if anyone might share their syllabi, sources, and particularly assignments with me. My current course, for which there has not been a demand for a while, is out of date. The course will be taught next year at the intermediate undergraduate level, with students who will appreciate a mixture of written and visual sources, including videos, etc. Any suggestions much appreciated.

Best wishes for a Happy New Year, David Del Testa
