

## [Looking for Panelist for AHA 2024 in San Francisco - Oral History of care](#)

Discussion published by Morag Martin on Tuesday, February 7, 2023

I am trying to put together a last minute (due February 15th) proposal for the AHA in January 2024 in San Francisco. My co-presenter and I both work in the Oral History of care/caretakers. I work on the lived experiences of New York Nurse Practitioners in the early days of the profession (1970s-1990s), while my co-presenter works on the Houseboat Community in Sausalito, California (1960s-1970s). We are looking for a third presenter who would be focused on either healthcare or other forms of care/caring.
