

## [Query: Seeking oral histories of migrants online](#)

Discussion published by Shira Klein on Tuesday, July 25, 2017

Can anyone suggest online oral histories of immigrants? Any group, to/from any place (including U.S.), at any period. I am designing an upper-division course on "Migration in World History." For the research paper, students will analyze an immigrant's oral history. I'm seeking to put together as comprehensive a list as possible.

Please reply off-list. I'm happy to share the final list I prepare with anyone interested.

Thanks in advance,
