

[4th International Conference on Food Chemistry & Nutrition](#)

Announcement published by Clara Reed on Friday, June 8, 2018

Type:

Conference

Date:

July 26, 2019 to July 27, 2019

Location:

British Columbia, Canada

Subject Fields:

Public Health, Health and Health Care

The prestigious [4th International Conference on Food Chemistry and Nutrition](#) to be held on July 26-27, 2019 in Vancouver, Canada will focus on the theme “*Exploring recent advancements and its application in the field of food chemistry & nutrition*”. We are confident that you will enjoy the Scientific Program of this upcoming Conference. This Conference will bring together academicians, chemists, scientists, dieticians, nutritionists, engineers, technologists, research, practitioners, industrialists, researchers and educators from around the world who are engaged in the fields of indigenous food products, food safety, [food security](#), functional foods, bioactive ingredients, nutritional factors, traditional and alternative medicine, dietary management . The Conference will highlight significant developments in research and innovations in agricultural, food, nutritional, pharmaceutical and medical technologies, with an emphasis on health and wellness. The Conference will feature a series of presentations and discussions in plenary, concurrent and poster sessions, informal gatherings, and exhibitions.

[Food Chemistry 2019](#) Annual Conference will offer 15 panel tracks, providing you with plenty of choices for where to submit your proposal. They are:

- Food biochemistry and food processing
- Chemistry and biochemistry of nutrition
- Recent Innovation in Food Chemistry
- Antioxidants and lipid oxidation in foods
- Food safety, security and control
- Food microbiology
- Biocatalysis and agricultural biotechnology
- Industrial biotechnology in food industry
- Nutraceuticals
- Nutrigenomics
- Current Research in Nutrition and Dietetics

- Economy of world food marketing and agri-business: Report, global issues and challenges
- Food and bioprocessing engineering
- Food Toxicology
- Food and drug analysis

The Conference will bring together academicians, chemists, scientists, dieticians, nutritionists, engineers, technologists from all over the world to exchange their knowledge and experience on [food and nutrition](#) research. We hope you will join us at Vancouver, Canada for a fantastic networking experience.
