H-Net recently had an opportunity to partner with the Organization of American Historians for their 2018 Annual Meeting Amplified Initiative. We saw many of you in the Exhibit Hall where we had a table set up to celebrate our 25 years of service to scholars online. There we had an opportunity to interview a few of our members about their experiences with H-Net.

We invite you to listen as our Associate Director of Networks sits down with **Hilary Green** (book reviewer for H-Empire), **Tyler Parry** (H-Afro-Am network editor) and **Heather Munro Prescott** (former H-Women list editor) talk about their different experiences with H-Net over the years.
