Welcome to the Soapbox, H-Material Culture's place for discussion of all things material. (Actually you can create discussion posts anytime you want on the site if you want to talk about things.) Here 3-5 guests will post a short piece on a given top each month, and all are invited to respond, offer their perspectives, even politely bicker!

To respond to or comment on anything you read in The Soapbox, click the link on the right side of the page to "View/Add Comments." This will take you to a page where all comments will be handily threaded together.

In April our guests will take up the question, "MCSA: Does Material Culture Studies need (or want) an association?"

May Topic: Multi-disciplinary Material Culture Studies

Topics and guest writers have already come from suggestions from readers. Please send me your ideas and we will get them set up!
