

## [Seeking commentator for SHAFR panel on Franco-American relations and comparisons](#)

Discussion published by Tim Roberts on Wednesday, November 21, 2018

Hello, a panel of scholars interested in presenting research on Franco-American relations and comparisons from the late nineteenth century to the Vietnam War era is interested in identifying a commentator for our panel. Papers will concern French Algeria's role in the U.S. treatment of the Philippines as U.S. territories; Franco-American relations over Vietnam, 1954-64; and a comparison of French and American policies of "imperial citizenship." Please direct expressions of interest or questions to me at [tm-roberts@wiu.edu](mailto:tm-roberts@wiu.edu) .

Many thanks.
