

## [Journal of American History Oil in American History Resources](#)

Page published by Tammy Nemeth on Monday, July 7, 2014

In June 2012 the [Journal of American History](#) published an issue dedicated to Oil in American history. A number of online resources were created to augment the publication, including a large image gallery, and a comprehensive list of research resources such as energy related archives, oral histories, oil related publications, and so on. Below you will find links to this resources page as well as to the other elements of the Oil in American History special project.
