Searching for Monographs: Historical Sociology/Human Society/History

Discussion published by Andrew Mills on Saturday, July 27, 2019

Greetings Everyone,

I'm currently looking for a good list of texts that I can engage with. My training is in East Asian and World History, but I would like to incorporate more texts that approach the topic of “Human Society in History.” I'm hoping to work with monographs focusing on Asia/Japan in World History, but also on human society as a whole. Any recommendations you could provide would be helpful.

Thank you in advance!

Best,
Andrew Mills, MAT
