

[Call for Book Chapters: Machine Learning and Social Justice](#)

Announcement published by Dmitry Kurochkin on Tuesday, November 26, 2019

Type:

Call for Papers

Location:

Massachusetts, United States

Subject Fields:

Human Rights, Philosophy, Law and Legal History, Political Science, Social Sciences

We seek contributions on emerging problems associated with the proliferation of the Artificial Intelligence (AI) use in decision making. This interdisciplinary edited volume focuses on topics of morality and social justice and discusses Machine Learning (ML) algorithms, including sources of potential social biases, from technical perspectives. Please submit your abstract (approximately 300 words), along with your CV by **December 20** to Dr. Dmitry Kurochkin dkurochk@tulane.edu and/or Dr. Elena Shabliy eshabliy@tulane.edu.
