Description:

Dear Colleagues,

I created this handout to help my colleagues switch to remote learning without having to retrain or re-invent the wheel.

Given that online learning is its own field and requires a particular skillset that many just don't have time to acquire on such short notice, the suggestions I include ask that you lean on technologies you already know how to use and feel comfortable using.

Let me know if you have any questions or suggestions.

Manuela Borzone, Ph.D.
