

## Historians for Future

Announcement published by Lea Beiermann on Wednesday, September 16, 2020

Type:

Call for Volunteers

Subject Fields:

Cultural History / Studies, Contemporary History, Environmental History / Studies, History of Science, Medicine, and Technology, Public History

Dear all,

In February some colleagues and I decided to form a '**Historians for Future**' group. Our aim was to provide a historical perspective on the climate and biodiversity crisis. We set up a [website](#) and [Twitter account](#) but when corona hit, it became difficult to keep the momentum going.

Now we would like to revive the group, and I am reaching out to ask if any of you would be interested in joining us. We are currently writing a statement on the role of history (and historians) in mitigating climate change, compiling a list of resources on environmental history and planning a blog/podcast series. We are a very small team and would be delighted if some of you decided to join us. You can reach us at [contact@historiansforfuture.com](mailto:contact@historiansforfuture.com).

Kind regards,

Lea Beiermann
