

## **BSHS Outreach and Engagement Project Grants**

Discussion published by LENKA SCHMALISCH (SEDIVA) on Saturday, January 16, 2021

The Outreach and Engagement Committee of the British Society for the History of Science (BSHS OEC) offers grants of up to £300 to support engagement and outreach projects. These grants are intended to encourage projects that engage with the history of science, technology and medicine (HoSTM) in new and exciting ways, and are applicable to their intended audiences. This might include, for example, supporting the costs of holding a public event, the creation of a small public display, or the translation of research into educational resources. We particularly encourage projects that take innovative formats and reach audiences who might be new to HoSTM.

Please, find more information and the application form at the BSHS OEC website: <https://www.bshs.org.uk/grants/outreach-and-engagement-project-grants>

**Application deadline:** Friday 19 February 2021
