

Everything You Ever Wanted to Know About Open Access Publishing: Opportunities, Pitfalls, and Deciding if it is Right for You

Discussion published by Avi Staiman on Tuesday, May 18, 2021

Dear H-SHEAR Readers,

Open Access is reshaping the scientific world by making research available to the masses while, at the same time, putting a tremendous burden on researchers who don't have the financial resources to support Open Access publication.

Stephanie Paalvast, head of Open Research at Brill Publishers will speak with Avi Staiman, CEO of Academic Language Experts about:

- How you should decide if your research should be published open?
- The finances of publication fees (APC's) for open research and how to negotiate a better rate
- Data on citations of open research as compared to traditional publishing
- Tips for identifying predatory publishers pretending to be open access publishers

May 25 at 4:30 PM- IST/ 2:30PM GMT/ 9:30 AM EDT on Zoom.
