

'Gender & Material Culture' Graduate Syllabus: suggestions?

Discussion published by sophie white on Wednesday, August 11, 2021

Hi, I'm teaching a new Graduate interdisciplinary seminar on "Gender & Material Culture" (keen to keep it open in terms of time/place as it will have a range of students), I would appreciate any suggestions for readings and approaches that have worked well, esp. in terms of methodology but also case-studies. Thanks!

Sophie White, Professor of American Studies, University of Notre Dame
