Women's & Gender History / Studies

Seeking panelist. Looking to complete a history panel on post-war II, gender, sexuality and religion (or lack thereof) for the OAH 2019 conference in Philly. We currently have three papers focusing on Protestant thought and the sexual revolution (independent scholar); women atheists (University of Washington); and evangelical homophile challenges to conversion therapy (University of Texas). Private message me if you are working in these areas and have a paper idea.
