

[QUERY: Hiring a researcher for the Arquivos Nacional in Brazil](#)

Discussion published by Gabriel Kanter-Webber on Sunday, October 24, 2021

Good evening. I'm based in London, and there's a single 57-page document in the Brazilian national archives, in Rio de Janeiro, which I'm keen to consult (unclear whether it's paper or microfilm). I have the file reference but sadly it's not digitised. Does anyone have any experience of hiring a local researcher/ any recommendations?

best wishes from the UK!
