Bulgaria

Subject Fields:

History Education, Educational Technology, Social Sciences, Teaching and Learning, Languages

Dear Colleague,

It is a great pleasure and an honor to extend to you an invitation to attend the 13th edition of the "Education, Research & Development" conference, to be held on 25-28 August 2022 in Burgas, Bulgaria. "Education, Research & Development" is an international event held annually since 2009, organized in collaboration with the Bulgarian Academy of Sciences, Union of Scientists in Bulgaria and Science & Education Foundation. Despite the difficulties related to the pandemic, participants representing 96 universities, institutes, and other organizations from 36 countries have joined the event in 2021.

The conference offers a setting for experts from academia, industry and research institutes alike to discuss and share their findings and ideas in areas related to education, pedagogy, open, distance and e-learning. The results from the conference will be published in an online open-access journal (optional).

Detailed information about the conference can be found at <https://www.sciencebg.net/en/conferences/education-research-and-development/>

The conference will be held in Burgas, the fourth largest city in Bulgaria, located on the Black Sea Coast. Burgas is the cultural center of the region, and is famous for its gorgeous seafront park, pedestrianized center and beautiful beaches.

We look forward to welcoming you at the meeting!
