The University of Texas at Austin  
Department of Geography and the Environment  
Fall 2011

Nature and Culture

GRG 302P, Course #37217  
Mon/Wed/Fri 3:00-4:00  
Room: GRG 312

Instructor  
Sharon Wilcox Adams  
Office: GRG 340  
Office Hours: Mon/Wed/Fri 2:00-3:00  
Phone: 240-888-3821  
Email: SEWilcox@mail.utexas.edu

The investigation of nature-culture relationships lies at the core of academic geography. This course introduces students to the study of the complex interactions and interrelationships between human society and the natural world from a geographic perspective, with an emphasis on nonhuman animals.

Consideration of the more-than-human world is a rapidly emerging field, and one in which geographers play an important and meaningful role. Animals challenge and compliment our notions of identity and humanity; they share our homes; they are present on our dinner tables; and they are omnipresent in our popular culture. Animals also animate the world around us, “personifying” nature. As we examine the ways in which boundaries are constructed, enacted, practiced, and challenged between the human and the nonhuman animal, we undermine taken-for-granted dichotomies, and collapse the distances constructed between human society and the natural world. By broadening our discussion of “natures” and “cultures,” and bringing the animal alongside the human, we cross through a rich terrain of interrelationships and interactions that can expand our understandings of ourselves and our “place” within the world around us.

Course Expectations

You will be exposed to a variety of perspectives and ways of looking at the world in this class. Some of these ideas you will agree with, others you will not. It is not my role to tell you what to think, but instead to offer you guidance on how to approach, examine, and begin to think critically about these complex issues. This will require effort on your part, including conscientious attendance, careful reading of assigned articles and constructive participation in class exercises and discussions. If you are having any problems with the material covered in class or in the text, please do not hesitate to meet with me during office hours. Consistent attendance and participation in class is absolutely essential for success in this class.
Assignments
Late assignments are not accepted. Extreme situations should be raised immediately with the instructor.

1. Participation: Class attendance and participation are mandatory. There will be unannounced exercises in class drawing from the readings of the week. Some of these exercises will be turned in for credit; others will be graded for content. COME TO CLASS PREPARED!

2. Animals in the News: Students are asked to bring in an average of one article from a major news source each week where animals figure prominently, for a total of TEN (10) over the course of the semester. These should be at least one full page in length (double spaced). Students should write a response to the article, including critical reflection and drawing connections between these current events and larger issues discussed in class. Students are invited to present their articles in class every few weeks in order to stimulate discussion.

3. Reading Responses: Students will write a brief critical response to assigned course readings (marked with a symbol on the course schedule). These should be at least one full page in length (double spaced). Students should turn in TEN (10) of these over the course of the semester, and are due the day that the reading is discussed in class.

4. Leading In-Class Discussion: Each student will be assigned one class day where they will be responsible for presenting a summary and critique of the assigned reading. Students will also generate a list of discussion questions and lead in-class discussion for the day.

5. Research Portfolio: There is no assumption that students will have experience conducting a major research project at the start of this class. The portfolio is intended to guide students through the process of crafting a properly researched, cited, and structured paper.

6. Research Paper: The final paper will be 10-12 double-spaced pages on a topic of the student’s own choice (the topic must be approved by the instructor) that explores the relationships between humans and animals. More detailed instructions will be given in class. Due in class on the last class day, late papers are not accepted.

7. Research Presentation: Students will present a 10 minute presentation on their research project. These presentations should include the use of audio/visual aids or utilize other handouts to better engage the class with their topic.

Writing Center
The Undergraduate Writing Center (www.uwc.utexas.edu) offers free, individualized, expert help with writing for any UT undergraduate, by appointment or on a drop-in basis. You may also feel free to schedule an appointment to meet with the Instructor outside of class for additional guidance.

Pass/Fail Grades: 60% and above - Pass

I will report midterm grades for all students whose academic programs and athletic departments require notice.
**Students with Disabilities**

Any student with a documented disability who requires academic accommodations (including note takers, alternative print formats, etc.) should contact Services for Students with Disabilities as soon as possible to request an official letter outlining authorized accommodations. Qualified students must make an appointment to meet with me outside of class time to discuss these accommodations, so that I can do all I can to help. This appointment must be made within the first two weeks of class. The responsibility of obtaining necessary documentation and informing the instructor through the proper channels rests entirely with the student. Please visit SSD’s website for more information: [http://www.utexas.edu/diversity/ddce/ssd](http://www.utexas.edu/diversity/ddce/ssd).

**Academic Integrity**

Students are expected to adhere to the University of Texas Honor Code ([www.utexas.edu/about-ut/mission-core-purpose-honor-code](http://www.utexas.edu/about-ut/mission-core-purpose-honor-code)). **University of Texas Honor Code:** “The core values of The University of Texas at Austin are learning, discovery, freedom, leadership, individual opportunity, and responsibility. Each member of the university is expected to uphold these values through integrity, honesty, trust, fairness, and respect toward peers and community.”

Every student should be aware of what constitutes plagiarism, and we will take the time to review this in class as well. Academic dishonesty will lead automatically to failing grade for the course, and the student can be subjected to further disciplinary actions in accordance with applicable provisions of the Student Code of Conduct and related University Regulations. You need to ensure that your work is your own. For more information on plagiarism visit: [http://www.lib.utexas.edu/services/instruction/learningmodules/plagiarism/](http://www.lib.utexas.edu/services/instruction/learningmodules/plagiarism/).

**Classroom Behavior**

Students and faculty each have responsibility for maintaining an appropriate learning environment. Students who fail to adhere to such behavioral standards may be subject to discipline. Faculty members have the professional responsibility to treat all students with understanding, dignity, and respect, to guide classroom discussion and to set reasonable limits on the manner in which they and their students express opinions. Professional courtesy and sensitivity are especially important with respect to individuals and topics dealing with differences of race, culture, religion, politics, sexual orientation, gender variance, and nationalities. I will gladly honor your request to address you by an alternate name or gender pronoun. Please advise me of this preference early in the semester so that I may make appropriate changes to my records.

**Please TURN OFF your cell phones before the start of class.** If you are talking on your phone, texting, listening to your iPod, surfing the web, Facebooking, Tweeting, etc. during class you will not receive credit for attendance that day.

**Contacting the Instructor**

The best way to reach me is by email. Please give me 24 hours to respond to your emails (and 48 hours over the weekend, as more often than not I am traveling Friday to Sunday.) My office is a shared office, so the best way to reach me by phone is to call me on my cell phone, 240-888-3821.
Course Materials:
Required Texts

Pick ONE from the following volumes on the Reaktion Animal Series (choose ONLY from these volumes.)

Available on E-Reserve:

Herzog, H. The Importance of Being Cute. Chapter in Some We Love, Some We Hate, and Some We Eat: Why It’s So Hard to Think Straight About Animals. New York: Harper.

**Web Links for the Following Readings are Available on Blackboard:**

Schedule

All reading assignments noted in italics
Written Responses may be submitted for all readings with the symbol

Week 1: Introduction and Expectations
August 24: Introduction
August 26: Haraway: *Chicken for shock and awe: war on words*

Week 2: Social Natures
August 29: *Social Nature*: Preface, Chapter 1
August 31: *Social Nature*: Chapter 2
September 1: *Social Nature*: Chapter 12

Week 3: Considering the Human “Place” In Nature
September 5: Holiday
September 7: *Uncommon Ground*: Introduction
September 9: No readings due, Research Paper Assignment Introduced

Week 4: Placing Animals
September 12: *Animal Geographies*, Preface, Chapter 1: Witnessing the Animal Moment
September 14: *Animal Geographies*, Chapter 4: *Le Pratique Sauvage*: Race, Place and the Human-Animal Divide
September 16: *Animal Geographies*, Chapter 6: Zoopolis

Week 5: Charisma and Affection I
Herzog: *The Importance of Being Cute*
September 21: *The Animals Reader*: Chapter 26: Why Look at Animals?
*The Animals Reader*: Chapter 24: Hunting and Humanity in Western Thought
September 23: *Animal Spaces, Beastly Places*: Chapter 12: Virtual Animals in Electronic Zoos
Slackman: *A Stuffed Polar Bear Won’t Do*

Week 6: Charisma and Affection II: Student Presentations
September 26: Reaktion volume chosen from list
September 28: Reaktion volume chosen from list
September 30: Reaktion volume chosen from list

Week 7: Avian Species, Human Appropriations
October 3: Research Portfolio: Resources, Citation and Ethics
*Flight Maps* Intro & Chapter 1
October 5: *Flight Maps*: Chapter 3
October 7: *Flight Maps*: Chapter 5

Week 8: Wild Animals in the American Imagination
October 10: *Wild Animals and American Environmental Ethics*: Chapters 1-4
October 12:  ❍ Wild Animals and American Environmental Ethics: Chapters 5-Epilogue
October 14:  ❍ Davis: Maneaters of the Sierra Madre

Week 9: Transgressive Animals
October 17:  ❍ Animal Spaces, Beastly Places: Chapter 3: Feral Cats in the City
October 19:  ❍ Siebert, An Elephant Crackup?
Class will meet by the turtle pond on campus
October 21:  Guest Speaker: City of Austin Parks and Recreation (Habitat Austin Initiative)
Research Paper Proposal Due IN CLASS

Week 10: Human Transgressions, Becoming Prey
October 24-28: Werner Herzog’s “Grizzly Man,” Film will be shown in class (Monday and Wednesday). Discussion will follow on Friday.
❍ Chewing on the Grizzly Man: Getting to the Meat of the Matter
❍ Plumwood: Being Prey

Week 11: Villainizing Predatory Natures
October 31:  ❍ Vicious: Chapters 1-3
November 2:  ❍ Vicious: Chapters 4-6
November 4:  Speaker: Bat Conservation International

Week 12: Recasting the Charismatic
Individual Research Paper Consultations (one-on-one meetings with instructor).
November 7:  ❍ Vicious: Chapters 7-9
November 9:  ❍ Vicious: “Reintroduction”
November 11:  ❍ Leopold, Thinking Like a Mountain, Conservation Ethic

Week 13: Morality, Ethics, and Animals
November 14:  ❍ Kellert, Human culture and large carnivore conservation in North America
Annotated Bibliography Due
November 16:  ❍ Czech, Social Construction, Political Power, and the Allocation of Benefits to Endangered Species
November 18:  ❍ Dion, The Moral Status of Non-human Beings and Their Ecosystems

Week 14: Research Presentations
November 21: In-class research presentations
November 23: No Class
November 25: Thanksgiving- No Class

Week 15: Research Presentations
November 28: In-class research presentations
November 30: In-class research presentations
December 2: In class research presentations
Research Papers due in class, LATE PAPERS WILL NOT BE ACCEPTED.
